Lenore Crawford Workshop:
Fusing Fabric

$15 supplies fee paid in class.
Check WEBSITE: http://www.lenorecrawford.com/fabricrequirements.html

Fabric requirements are very specific depending on which pattern you would like to do. Fabric is not supplied in the kit. 10-12 fabrics 5x5 to 14x10 are on the list, which is too long and too specific to supply here.

- **Rotary cutters:** 18 mm (optional) and 28 mm (the most practical rotary cutter available)
- **Cutting mat**
- **Scissors:** regular (embroidery optional)
- **Large tweezers:** like for beading (optional)
- **Black Ultra Fine Sharpie** plus regular **Fine Sharpie**
- **Masking tape:** beige
- **Pencil**
- **X-Acto knife** with fine blade
- **Ironing pad to use for fusing:** I suggest you make your own small ironing pad by cutting a piece of foamcore to size for your travel bag (about 12" square) and covering it with cotton batting, attached with a hot glue gun on the back of the foamcore.
- **Waste sack** (This is a very messy technique)
- **Fabric according to pattern requirements:** Select your fabric using the list on the Fabric Requirements Page for the pattern you choose to do in class. Choose fabrics with a gradation in tone from light to dark of similar colors. Make sure you can see the difference between each shade of fabric. This helps give your design more depth.
- **Choices for this workshop are Yellow Poppies, Yellow or Magenta Cone Flower, One Poppy, and Red Poppies patterns.**
- **Background fabric** is also needed for these patterns, at least 20" x 25" (50 cm x 65 cm).
- **Paint brushes:** 1/2" angular, 1/4" angular, 1/8" angular, 0 liner. Look for very, very small angular brushes if you can't find these exact numbered brushes. I like to have very fine brushes for detail work, and this is a good mix of sizes from very, very small to medium. Painting is demonstrated in this class. Students can begin to paint on their projects once they have finished fusing them. I will have these brushes available for purchase.
